Royal Horticultural Society - Categories - RHS Colour Chart

The RHS Colour Chart is the standard reference for plant colour identification. Used by the RHS, the chart is indispensable to gardeners who value accuracy in the identification of plant colours. But it is not just gardeners that value the chart - it has been used by food manufacturers to standardise food colourings, chemical engineering companies and fabric designers.

tural Society (RHS) Colour Chart should remain reasonably stable for many years. In using a color chart, avoid contamination by moisture and matter! Using the holes in the center of the 1986 and 1995 RHS color patches is a questionable practice. It may assist in color evaluation to see the specimen color through the hole in a color patch, but ...
